Extention Lift is designed for todays' automated homes, offices, hotels and classrooms, with just a touch of the button, the projector can be lowered for viewing or hidden in the ceiling when not in used. With the metal cage, it provides a wide range of mounting options, and can be matched with a finish ceiling, The Extention Lift can also be installed in a designer cabinet or conference table

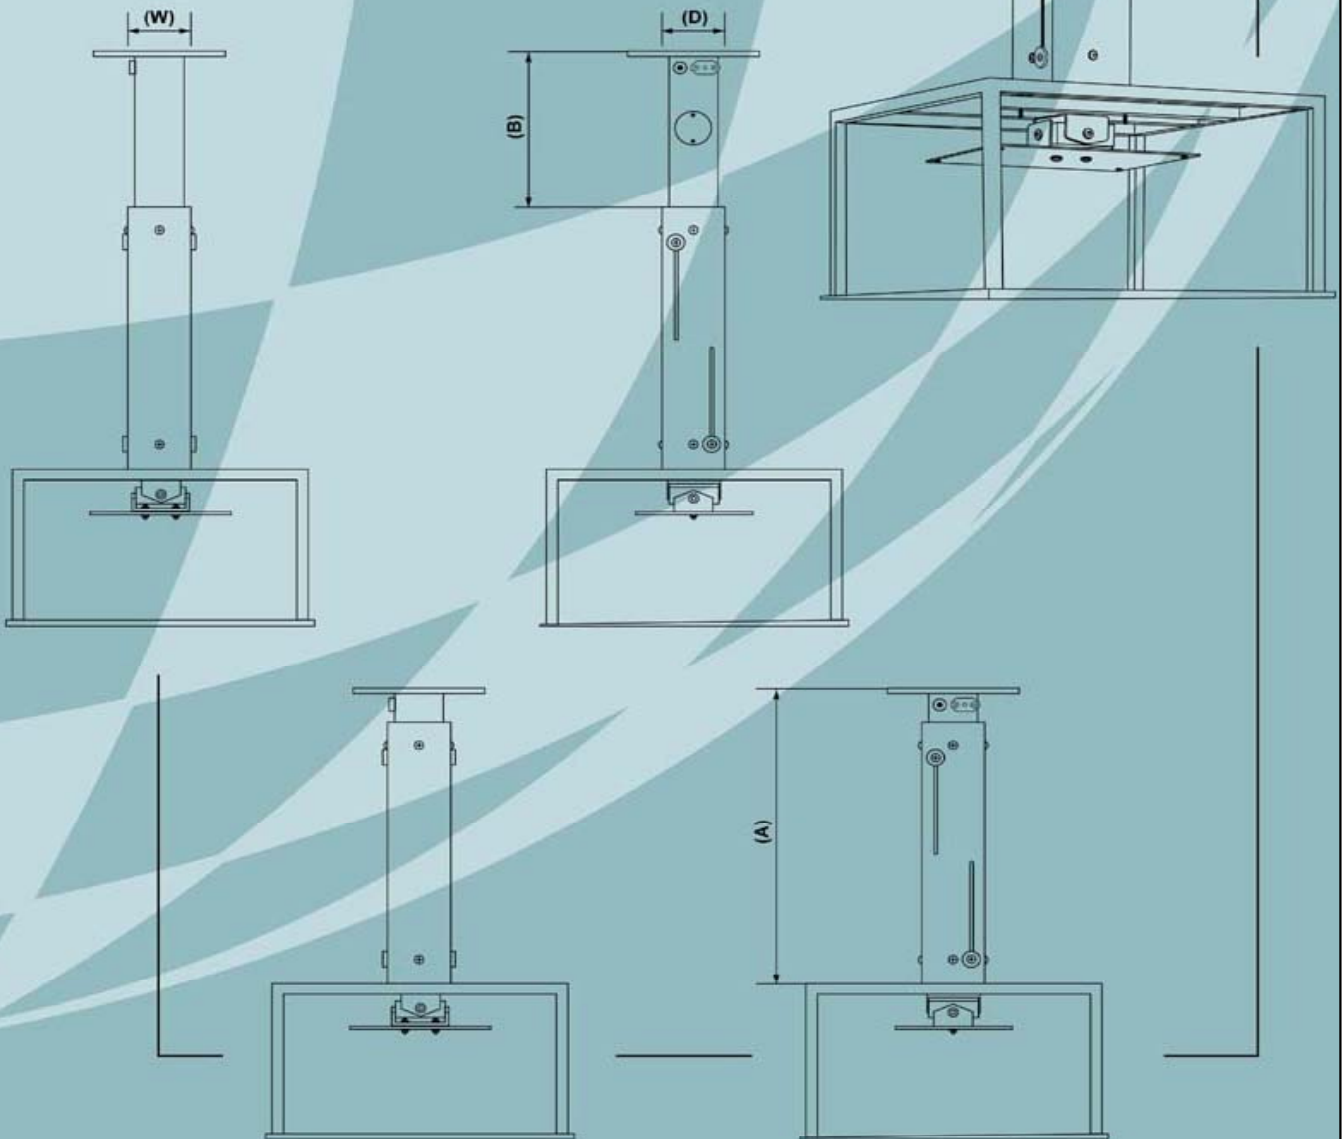

The Extention Lift is powered by a quiet 230V AC actuator motor, incorporated with a control system and driven mechanism, assuring comfortable installation and adjustment of the stroke length is at the finger tips. A choice of two travel distance is available

XTENTION LIFT

XTENSION LIFT

Model	Dimension (WxHxD)	Stroke (B)	Max load	Max power consumption	Voltage
